WORK EXPERIENCE

Baruch College Subotnick Financial Services Center — College Assistant — New York

Aug. '21 - May '22

- Aided in IT troubleshooting during daily activities or corporate events
- Facilitated weekly maintenance of devices containing the Bloomberg Terminal
- Assisted the Subotnick Financial Services Center with daily tasks

CVS Health Digital Accessibility Internship — A11y Engineering Intern — New York

Jun. - Sep. '21

- Engaged in agile and scrum methodologies, the implementation of SAFe and WCAG compliance as well as accessibility testing for app/web development
- Utilized Rally (project management tool) to facilitate daily testing of web accessibility features and defect reporting
- Made use of JAWS, NVDA, and VoiceOver screen readers, for accessibility testing
- Participated in an effort to find a solution to CAPTCHA security accessibility

CUNY Research Scholars Program — Student Researcher — New York

Mar. - Jul. '19

- Worked with a team to develop a Python command-line program for Unix-like systems that can quickly and accurately search for and sort the many genomes in Staphylococcus aureus
- Created an Excel database of all Staphylococcus aureus genomes used in the research
- Took part in publication of a research paper according to the results
- Presented the results at a symposium held at CUNY John Jay
